Moore, Mary W.
Murdell, Harry

Winter Arrangements.

Letters for the West and North (those except Sunday's) should be deposited in the Box by 4 A. M. For the East (Sunday except Sunday's), South and Woodstock (Monday, Wednesday and Friday) at 4 P. M. For stocks (Tuesday, Thursday and Saturday) at 4 P. M. For Windsor (Tuesday and Saturday) at 4 P. M.

THOMAS J. GORMSBEE, P. M.

LIST of Letters received in the Post Office at Pittsfield, quarter ending Dec. 31st, 1839.

Patty Adams,
John Brown,
Rev. Miller Childs,
J. C. Collier,
George Clark,
Couch, Clifford, Jr.,
C. F. L. Grangers,
Oren Phillips,
Oliver Harrison,
Henry Hookins,
Daniel Kemp.

ADDISON DUCK, P. M.

CASES OF DYSENTERY.

BOWEL Complaints, Fevers, and other diseases incident to the season, will be surely prevented by the use of Morrison's Pills. It has been tested in every climate. Old-standing Chronic and other diseases, incurably by the regular Practitioner, are effectually cured by the persevering use of Morrison's Pills and Powders—This has been done in thousands of cases. Every kind of Fever, the Small Pox, Measles, that terrible disease of the Convulsions, and every disease yielding up their victim to the sure and efficient Goddess of Health, The Morison's Hospital Universit of the British College of Health. See "Morrison's" by Jas. Morrison the Agent. Do not be induced to buy some other kind of those who are using the VARY WORDS OF THE HYGIEST to vend a far inferior medicine, as can be seen by comparing the Morrison's, with their standing advertisements. To those taking Morrison's Pills, we say, do not stop taking them when you feel worse, rather increase the doses, you must feel worse when the medicine begins to act upon the foul serpentine humors of the body, which often have been left to fix themselves with almost fatal grasp to the intestines, and many times made stronger still by merciful and other hurtful passes. Many a restored patient says, I tried your Morrison's Pills for days, felt no better. I think worse, and stopped using them, but soon found I must do something, and commenced again with a determination to persevere, knowing how many testify that they grow stronger instead of weaker by a continued purgation by them; and here I am hearty and well, better than I have been for years before, and as I had given up all hope of ever being again, I am WELL, enjoying a sound mind in a sound body. O how thankful I am that I took Morrison's Pills and persevered in taking them. What a blessing to the world see Morrison's Pills; and would that I could induce multitudes who are miserably sick, and so bewildered to the GOOD OLD REGULAR PRACTICE, that they will not take even that which can cure persons diseased like themselves all around them. Not No! It's all Quackery! Quackery! Nowhere. I will not take this stuff prepared to gall the patient and get money. No, no! I am too well informed to be caught thus. I will die first, and then be dead, so poor, (who might be cured by using Morrison's Pills) until they are QUACKED into the grave. Rutland and every town in the Union can furnish Morrison's, and plenty of them too, cured by the use of Morrison's Pills, of almost every named disease in the vocabulary of Medical Science. The reader will bear in mind that there are not so many real diseases as there are names given; but there are ever fruitful names Faculty arbitrarily giving names to diseases which exist only (if ever where) in the brain of him who gives it. The doctor first described by Jas. Morrison the Hygienist in 1825, 15 years ago, that the vital principle is contained in the Blood, and "every thing in the body is derived from the Blood," and that all disease arises from incrustation in the Blood, and that "Purgation by vegetables is the only efficient mode of purifying the Blood, and expelling disease," has sped with unparalleled rapidity over the whole habitable exiguity world. His measure, (for which he was called "Mormon" or the sketch of his life in pamphlet form) to be had free of most of the A. west, after thirty five years of suffering under the Medical Faculty, prepared of vegetables solely, and upon the principles above quoted, have not failed to act upon others as it did upon him. It prevents disease, and is quite a sure cure of any disease if persevered in, unless the person is cast away. At any rate, no other medicine cures so many. Complaints are not made against the medicine made by Morrison the Hygienist, but there are Pills made in New York called Morrison's Pills which have caused much complaint—Let it be borne in mind that the genuine Morrison Pill has again made their appearance in these United States. Mr. Houghton has sent an Agent from London whom he has full confidence that he will not betray the important trust of sending forth only the medicine sent to him by the celebrated Hygienist in London. And the public will please notice that this medicine takes the form of rank in giving right, entire, life and health.

A short time will suffice to complete the recovery the Hygienic cure sustained by its adherents, and are long, in thousands more of the Families in these States, in other medicines but Morrison's Pill will be wanted—The cause goes on as well as its most sanguine friends could have anticipated. Be sure and get the medicine made by Morrison the Hygienist himself, and you will get for \$1 to \$3 that which in many instances will save you a Doctor's bill of 10 to 30 or \$100, and which will save you life and health.

GEO. TAYLOR, 612 Wall street, New York, member of the British College of Health, Agent for the United States sent out by said

Lawrence and Franklin counties, N. Y. Every packet sold in the above places we shall sign our names upon, none others are genuine. Our sub-agents will also sign their name upon those they sell.

RANGERS & BRASSMADE.
Packages \$1 and Glass, Powdered 25 cents per box. The Packages contain more pills than formerly, and the boxes of Powdered are much larger and cost less. Cases of pills will soon be sent.

See that the Packages are signed by

PANGORN & IRVINGMADE.

Vermont State Agents, appointed by Geo. Tay-

lor, 13 Chamber, New York.

Moses Oury & Roberts, of Factory Point, are the sole agents for the county of Bennington.

SUB AGENTS.

Geo. H. Fish, Middlebury, Adams County.

O. A. Keeler, Middlebury, Franklin County.

S. E. Moore, Middlebury, Orleans County.

John Kellogg, Danville, Caledonia County.

N. C. Goddard, Winooski, Windham County.

M. H. Blackford, Bellows Falls, Windham County.

H. W. Foster, Rutland, Rutland County.

W. W. Cuttsell, Montpelier, Washington County.

Foster Gove, Calais, Orange County.

Eliza Jones, Rutland, Rutland County.

Richard Williams, St. Johnsbury, Orleans County.
